MOHAMMED ASHRAF ABU TALEB

Full Stack Developer | Community & Entrepreneurship Builder

mohammeda.abutaleb@gmail.com | linkedin.com/in/mohammed2002 | mohammedabutaleb.com | +970 592607179 | Gaza, Gaza, 00970, PS

SUMMARY

Full Stack Developer with hands-on experience building production-grade web applications, e-commerce platforms, and internal operational systems using React, Next.js, Tailwind CSS, Supabase, Convex, and PostgreSQL. Alongside technical work, brings a strong record of humanitarian and community engagement, mentoring English Access Program alumni, volunteering with the American Consulate, and helping small businesses grow through website design and content writing. Experienced in AI-assisted development workflows, frontend instruction, and technical mentorship.

PROFESSIONAL EXPERIENCE

Freelance Full Stack Developer Jan 2023 - Present

Remote

- Developed responsive, scalable websites and web applications using React, Next.js, and Tailwind CSS, including portfolio, marketing, and e-commerce sites optimized for performance and accessibility.
- Integrated APIs, optimized frontend code for fast loading and maintainability, and designed UI/UX interfaces in Figma aligned with client branding and usability standards.

Frontend Instructor 2026 - Present

Zero to Hero

- Teaching frontend development fundamentals, covering HTML, CSS, JavaScript, and practical project-building workflows.
- Introduces students to AI tools that support frontend development, faster prototyping, debugging, and improved learning productivity.

Full Stack Developer (Volunteer) Nov 2025 - Feb 2026

Zero to Hero

- Architected and deployed a production-ready e-commerce platform using Supabase and Convex, with secure authentication flows and role-based access control.
- Designed and implemented a custom accounting and hourly billing system to automate workspace charge tracking and invoice generation.
- Managed the full software development lifecycle from planning to deployment, conducted a Prompt Engineering workshop, and mentored a junior developer in JavaScript and React fundamentals.

ENTREPRENEURSHIP & IMPACT

Small Business Digital Growth Support Ongoing

Independent

- Helped small business owners establish and grow their online presence through custom website design tailored to their brand and audience.
- Wrote and structured website content and copy to clearly communicate value propositions and improve customer engagement.
- Advised on practical, low-cost digital solutions to help small businesses operate and grow more effectively.

HUMANITARIAN & COMMUNITY ENGAGEMENT

Lead Trainer, Kids Startup & Leadership Camp Jul 2026 - Aug 2026

Spark, Gaza

- Designed and led a 21-hour entrepreneurship and leadership program for 22 youth (ages 12-16), guiding teams through ideation, prototyping, and a final Demo Day pitch.
- Rotated youth into leadership roles, tracked progress across teams, and managed program logistics and budget.

Mentor, Access Alumni Network 2018 - 2022

English Access Micro Scholarship Program

- Mentored current Access Program students, supporting their English language development and personal growth as part of the wider alumni community.

Program Volunteer, American Consulate 2016 - 2017

English Access Micro Scholarship Program

- Volunteered with the American Consulate as an Access Program student, taking part in civic and community engagement activities alongside the language curriculum.

PROJECTS & AI PARTICIPATION

Organizer & Speaker, CanZ Jun 2026

- Co-organized and spoke at CanZ, an event sharing ideas on tech and entrepreneurship with new high school graduates and first- and second-year university students.

Participant, Palestine AI Week Apr 2026

Palestine TechnoPark & Gaza Sky Geeks

- Collaborated across two AI-focused product teams: CivicMind, a web app that classifies citizen reports by category, department, and urgency using trained AI models; and Bookshelf, a mobile app that uses AI to summarize books, recommend books and movies based on reading history, and process book-cover uploads.

CORE SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React, Next.js, Tailwind CSS

Backend: Next.js API Routes, Supabase, Convex, REST APIs

Database: PostgreSQL, Database Schema Design

AI & Teaching: Prompt Engineering, AI Tools for Development, Frontend Instruction, Technical Mentorship

Entrepreneurship & Content: Small Business Website Design, Content Writing, Brand Messaging

Tools & Practices: Git, GitHub, Production Deployment, API Integration, Authentication & Authorization, Responsive Design, Performance Optimization

Additional: UI/UX Design, Figma

EDUCATION

Al-Azhar University - Gaza - Bachelor of Science, Computer Systems Engineering (Expected 2027)
Islamic University of Gaza - Previous academic background: Medicine

LANGUAGES

Arabic (Native), English (Fluent)

CERTIFICATES

Introduction to AI with Python (Gaza Sky Geeks/Mercy Corps, Mar 2026); Meta Front-End Developer Professional Certificate (Meta/Coursera, Oct 2025); Data Structures and Algorithms (Gaza Sky Geeks/Mercy Corps, Aug 2025); Medical Terminology Course (TebFact); English Language Certificate, Advanced Level (Amideast); English Access Microscholarship Program (American Consulate); Communication Skills Level 2 (IBC)
